**VIA E-MAIL**

City of Clare  
202 West Fifth Street  
Clare, Michigan 48617-1490

WSSN: 01420

Dear Water Supply Owner/Operator:

SUBJECT: City Of Clare 2020 Quarterly  
Per- and Polyfluoroalkyl Substances (PFAS) Results

The City of Clare was included in a state-funded quarterly sampling effort because PFAS results in 2018 or 2019 were greater than or equal to 10 parts per trillion (ppt) total PFAS. The results of the most recent PFAS sampling for the City of Clare, WSSN # 01420 (water supply) on the date(s) indicated are below. A copy of the laboratory report is enclosed for your review.

Date Collected	Sampling Location	PFOS + PFOA (ppt)	Total Tested PFAS (ppt)
3/30/2020	TP004	4	17

ND – The parameter was not detected based on the laboratory’s analytical report.  
See Official lab results for test method used.

These results will be posted online on the Michigan PFAS Action Response Team (MPART) Web site within 48 hours of this notification. The results will be found online by going to the MPART Web site address listed below; click on “Drinking Water,” select “Public Drinking Water” from the options available, and finally select “Statewide Testing Initiative.” For information on PFAS, including possible health outcomes, you may visit these Web sites:

- **State of Michigan MPART** Web site serving as the main resource for public information on PFAS contamination in Michigan: [Michigan.gov/PFASResponse](http://Michigan.gov/PFASResponse)
- **USEPA** Web site including basic information, United States Environmental Protection Agency actions, and links to informational resources: <http://www.epa.gov/pfas>
- **ATSDR** Web site including health information, exposure, and links to additional resources: [www.atsdr.cdc.gov/pfas](http://www.atsdr.cdc.gov/pfas)

To speak to a Michigan Department of Health and Human Services (MDHHS) toxicologist, call toll-free at 1-800-648-6942.

Thank you for your continued collaboration in this voluntary sampling effort. The ongoing partnership between the Michigan Department of Environment, Great Lakes, and Energy (EGLE) and Michigan's public water supplies plays an integral role in the state's continued efforts to ascertain and address the incidence of PFAS in drinking water for Michiganders.

If you have any questions concerning this sampling, please contact me at the telephone number below; by email at [EGLE-PFAS-DrinkingWater@Michigan.gov](mailto:EGLE-PFAS-DrinkingWater@Michigan.gov); or by mail at EGLE-Drinking Water and Environmental Health Division, P.O. Box 30817, Lansing, Michigan 48909-8311.

Sincerely,

*Lois Elliott Graham*

Lois Elliott Graham, R.S., M.S.A.
