The City Commission is now asked to approve those items and to set the millage rate.

Prior to adopting/approving the budget/CIP, and the millage rate, the City Commission is required to hold a public hearing to receive comments regarding the budget, and the CIP, and set the proposed tax millage to be collected for the new fiscal year commencing July 1st. **D. TRAFFIC CONTROL ORDER 2024-01 AFFECTING BEECH STREET AND BEECH & SIXTH STREET**

Due to the upcoming construction and renovation that will be taking place on the Clare Hospital property for the MyMichigan Clare Health Center, a request was made by the DDA and Planning Commission to make the intersection of 6th Street and Beech Street a four-way stop for increased safety and better traffic control when the new main West entrance/exit for the hospital/emergency room will be created to line up with 6th Street on Beech. In addition, a recommendation was made to address the on-street parking issue on Beech from 5th Street to State Street. The Traffic Safety Committee met on May 16, 2024, and discussed the potential changes. The City's Traffic & Safety Committee has reviewed the request and recommended approval of the request. The City Commission is asked to approve the request by issuance of a Traffic Control Order 2024-01.

Changes include:

- 4-way stop at 6th Street and Beech Street at the new West entrance/exit of the hospital campus.
- Paint yellow no parking on the first parking space south of the southern exit on the west side of the hospital in front of the dentist's office on the east side of Beech (2 or 3 spaces will remain in place in front of the office)
- No parking signs on the East side of Beech Street to 7th Street from North of the Southern most hospital entrance off Beech.

**E. CHANGE ORDER-LAKE SHAMROCK DREDGING**

As we have continued to move through the process of dredging Lake Shamrock, additional obstacles and costs have arisen due to additional required permitting, testing requirements, and other issues. Savin Lake Services has worked with City Staff to address the issues and has incurred additional time and costs to do so above and beyond their initial contract amount. Those costs are relatively minor in the overall contract amount and are outlined in the attached Change Order. The City Commission is asked to formally approve the Change Order.

9. CITY MANAGER'S REPORT:

Lake Shamrock Dredging and Dam Project. The pause for fish spawning ended on June 1<sup>st</sup> and Hydraulic and mechanical dredging are on again. The contractor plans on operating both dredges 24 hours a day and 7 days a week as soon as they can get started. We recently met with our dam engineers, GEI and Spicer, regarding our awarded \$600,000 grant and are working on a plan to move forward with the project and the funding that we have while we wait for additional potential funding sources.

Rail Trail. The project is continuing to move forward and appears to be on schedule.

MDOT Summer Road Project. Brian Atkinson, Operations Manager for MDOT, recently reached out to the city to let us know that due to the light winter, they had winter savings in maintenance for our Region. As a result, they are adding a 1.5" cold mill and a 1.5" resurfacing project in the City of Clare. The project will be on McEwan/South Clare Avenue from State Street northerly to north of the Speedway gas station (north of US-127), approximately 1.72 miles in length. MDOT did not have plans to do work in our community over the next several years on this stretch of roadway, but because of the winter savings, they are now able to invest approximately \$1 million in funds to keep this section of roadway in good condition. The project is currently being advertised, and MDOT anticipates having the bids by June 1st. The construction window would be mid-June through August, with approximately 20 working days.

Michigan Green Communities. Clare was again recognized for environmental leadership by the statewide Michigan Green Communities program in 2023. As part of the Michigan Green Communities (MGC) Challenge, local governments were awarded gold, silver, or bronze seals of achievement reflecting community leadership in areas such as energy efficiency, climate adaptation and resilience, recycling, environmental justice, and more. The City of Clare achieved silver status for exemplary action in multiple categories, including categories related to planning, economic development, land use, climate resilience, climate adaptation, energy efficiency, renewable energy, materials management (AKA recycling, composting, waste diversion), water conservation and protection, clean mobility, and community engagement.
